

# NEW CARDIAC AND SURGICAL UNIT - Hull's Castle Hill Hospital

## P21 Procurement with the NHS

**Client** | Hull & East Yorkshire Hospitals NHS Trust  
**Project** | New Wards and Operating Theatres  
**Project Details** | Value: £31m  
**Programme** | 2007/08

### Objectives

- > Delivering the project within the P21 framework
- > Providing increased ward and surgical theatre services
- > Reducing waiting lists

### Derrick Kershaw Partnership

- > Assisting the Project Manager as the Trust's Cost Advisor
- > Delivering the project with P21 procurement
- > Agreeing a Guaranteed Maximum Price

The new building is constructed in the heart of the existing hospital complex bringing a number of significant challenges for the team. The scheme also required a series of separate enabling works contracts which were carried out over a two year period prior to the commencement of this contract.

### Client Quote

*"The Trust is very pleased with the levels of professional service provided by Derrick Kershaw Partnership. They are able to respond quickly and provide effective solutions with a progressive, technological approach and always having the project objectives in mind at all times. Our key objective is to bring our services to patients quicker and reduce waiting lists with a new state-of-the-art cardio vascular facility. Through the ProCure21 partnership with Derrick Kershaw Partnership we are hoping to achieve that."*
